

Yale Young Global Scholars

An official Yale University program, participants in the Yale Young Global Scholars Program for Outstanding High School Students can expect an amazing summer experience studying in beautiful campus lecture halls and classrooms, living in Yale's historic residential colleges, eating in award-winning dining halls, meeting a talented community of fellow students, engaging with world-renowned professors, and interacting with extraordinary visiting practitioners.

The Yale Young Global Scholars Program is a very selective leadership-development program for high school students from around the world. The program is designed to bring together students with the talent, drive, energy, and ideas to make meaningful impacts as young leaders, even before they begin university studies.

Living on the Yale campus for two weeks during the summer, students in the program:

- hone their abilities to think critically and flexibly;
- engage productively with a diverse group of peers;
- explore new and exciting ideas;
- meet distinguished scholars and practitioners;
- develop key communications skills.

While building a strong network of like-minded young people, participants assemble a leadership toolkit that they take back with them to their home communities at the conclusion of the program.

HOBY Advanced Leadership Academy

"HOBY's Advanced Leadership Academy (ALA) is a program for any U.S. or international high school **junior or senior** (ages 16-18 at the time of the program and have completed their junior or senior year of high school). Students are not required to have participated in other HOBY programming to be eligible to participate in the ALA.

Through the HOBY Advanced Leadership Academy, participants: Understand and develop themselves along the seven dimensions of the Social Change Model of Leadership (SCM) and how they work together to accomplish the eighth dimension, change; Use Gallup's Clifton

StrengthsFinder™ assessment to identify and understand their own strengths and capabilities; Create a project action plan to lead and implement a service project or social enterprise in their home communities within one year following the ALA; Meet new people and establish an ongoing network of peers, other leaders and social entrepreneurs; and Earn college credit from George Mason University.

For more information and the application, please visit <http://www.hoby.org/programs/advanced-leadership-academy/>.

Bank of America Charitable Foundation's Student Leaders® Program

The Bank of America Charitable Foundation's Student Leaders® Program is accepting applications for the Student Leaders® program. In light of your affiliation with youth programs, we would like your help spreading the word.

Since its inception in 2005, the Bank of America Student Leaders Program has recognized more than 2,200 exemplary high school juniors and seniors who have a passion for improving their communities. The program helps students gain a greater understanding of how nonprofits create impact in the community and helps develop them as the next generation of community leaders through two components:

- A summer eight-week paid internship with a nonprofit organization selected by the bank. This internship is designed to provide opportunities for the students to develop and apply leadership skills through hands-on work experience, while raising their awareness of community issues addressed by their Host Organization.
- The week-long, all-expense paid Student Leaders Summit is in Washington, D.C.. Conducted in partnership with the Close Up Foundation, the Summit introduces students to aspects of civic, social and business leadership and provides them with knowledge and skills they will use throughout their life to create positive community change.

In order to spread the word about the opportunity to your members, partners, and affiliates, please distribute the email below.

We appreciate your help spreading the word about the Bank of America Student Leaders Program. Students can apply for the program by going to www.bankofamerica.com/studentleaders.

For more information and the application, please visit www.bankofamerica.com/foundation.

Carnegie Pre-College Programs

Are you going to be a junior or senior in high school? If so, consider spending the summer in one of our distinct summer Pre-College programs:

- Advanced Placement/Early Admission (AP/EA)
- Architecture
- Art & Design
- Drama
- Music
- National High School Game Academy

Our summer Pre-College programs will show you what life at Carnegie Mellon is all about - from the classroom to what's happening on weekends. You'll meet people from all over the world, be inspired by our world-renowned faculty, take part in the excitement of campus and have the opportunity to explore the city of Pittsburgh.

See what life is like for a Pre-College Summer Program student at Carnegie Mellon! Also view the Pre-College Playlist which is broken down by program.

For more information and the application, please visit <http://admission.enrollment.cmu.edu/pages/pre-college/>.

University of Southern California Summer Programs

USC Summer Programs extends a tradition of excellence to outstanding high school students through unique 4 and 2 week summer courses. Accepted students to the USC Summer Programs will balance academic and campus life as they prepare for college in the nation's entertainment center – Los Angeles, California.

USC Summer Programs' courses are taught by USC faculty and experienced professionals of the USC academic community. Summer Programs' faculty create an engaging academic experience by combining lectures, hands-on workshops and labs, guest speakers, and academic field trips to locations throughout Los Angeles. Each course is designed to be more interactive, engaging, and challenging than accelerated high school classes or the broad introductory courses offered by other summer pre-collegiate programs.

For more information and the application, please visit <http://summerprograms.usc.edu/>.

AMDA Summer Programs

Intensive Performing Arts Training in a College Environment for High School Students

Our unique program offers a transformative experience for talented high school students looking to immerse themselves in the performing arts. This summer, teens from all over the world will study, train, rehearse, perform and live on AMDA's New York City and Los Angeles campuses.

The rigorous curriculum is taught by a world-class faculty of artists who offer students professional-level training in acting, singing and dance.

AMDA's Summer Conservatory empowers young artists to choose their own path within our three performing arts disciplines. Residential and commuter programs in NYC and LA are open to all talented high school students completing grades 8-12.

For more information and the application, please visit <http://www.amda.edu/high-school-summer-program>.

School of the Museum of Fine Arts Boston

The SMFA Pre-College Program is a rigorous summer program for high school students interested in the visual arts. The core of the curriculum centers around an interdisciplinary approach, combining studio work, critique and discussion, building a solid foundation of artistry, conceptualization and technical skills.

Students from a variety of backgrounds and countries spend four weeks on SMFA's campus, utilizing the studios, working with expert faculty and graduate mentors, building their portfolios, exploring the Museum of Fine Arts and Boston's cultural and historic landmarks. Graduates of the program can earn up to four college credits towards undergraduate study at the School of the Museum of Fine Arts

For more information and the application, please visit <http://www.smfa.edu/pre-college-summer-studio>.

FSU Young Scholars Program

The Young Scholars Program (YSP) is a six-week residential science and mathematics summer program for Florida high school students with significant potential for careers in the fields of science, technology, engineering, and mathematics. The program was developed in 1983 and is currently administered by the Office of Science Teaching Activities in the College of Arts and Sciences at Florida State University.

Eligibility:

The program is designed for students who have completed the eleventh grade in a Florida public or private high school. A few exceptionally qualified and mature tenth graders have been selected in past years, though this is quite rare.

To be considered for acceptance, applicants must:

- Maintain at least a 3.0 GPA (unweighted)
- Have received a score in the 90th percentile or better in math on a nationally standardized exam (i.e., SAT, PSAT, ACT, or PLAN) *before the application deadline*
- Be enrolled in or have completed Pre-Calculus

- Be able to commit for the entire six weeks of the program (**no exceptions** will be made for travel to other summer internship opportunities, sports camps, Mu Alpha Theta, etc.)
- Maintain a permanent residence in the state of Florida

For more information and the application, please visit <http://bio.fsu.edu/ysp/>.

Engineering Summer Academy at Penn

The Engineering Summer Academy at Penn (ESAP) welcomes highly motivated and talented students to explore Engineering at the college level. The Academy's intensive, three-week programs combine sophisticated theory with hands-on practical experience in cutting edge technologies. Work with leading faculty, live on Penn's historic campus, and connect with new friends from around the world.

The School of Engineering at the University of Pennsylvania offers a unique opportunity for a selective group of highly motivated and talented high school students to experience rigorous and challenging college-level coursework. The Academy's intensive, three-week programs combine sophisticated theory with hands-on practical experience in cutting edge technologies such as biotechnology, computer graphics, computer science, nanotechnology, robotics, or engineering complex networks.

For more information and the application, please visit <https://esap.seas.upenn.edu/about/>.

Girls Who Code

The Girls Who Code Summer Immersion Program is a 7-week computer science course that embeds classrooms in technology companies and universities. Students learn the fundamentals of computer science - from robotics to how to build a webpage - while gaining exposure to the tech industry and mentorship from women working in technology.

Key programmatic components of the Girls Who Code Immersion Program include:

- **Skills** – Seven weeks of intensive instruction in computer science, robotics, algorithms, web design, and mobile development
- **Exposure** – Speakers, demos, workshops, and presentations from female engineers and entrepreneurs; field trips to technology companies, startups, academic institutions and more
- **Mentorship** – Top female executives, entrepreneurs and engineers provide career and academic mentorship

For more information and the application, please visit <https://girlswhocode.fluidreview.com/>.

Princeton Journalism Summer Program

The Princeton Summer Journalism Program is a paid-for journalism and college preparation program for high school student journalists from low-income backgrounds at Princeton University. The program's goal is to diversify college and professional newsrooms by encouraging outstanding students from low-income backgrounds to pursue careers in journalism.

Classes at the program are taught by reporters and editors from The New York Times, The Washington Post, The New Yorker, The Daily Beast, Time, National Journal, New York Magazine, The New Republic, ESPN the Magazine, CNN and NPR, among other media outlets. Students meet with numerous Princeton professors, as well as Princeton's president and admissions officers. They report an investigative story, cover a professional sports event, produce a TV segment, and publish their own newspaper. And they receive guidance on the college admissions process not only during the 10 days of the program, but also during the fall of their senior year of high school.

To be eligible for the program, students must meet the following qualifications:

- Must currently be juniors in high school.
- Must live in the United States.
- Must have at least an unweighted 3.5 grade point average (out of 4.0).
- Must have an interest in journalism.
- Must have combined income of their custodial parent(s)/guardian(s) plus child support payments, if any, must not exceed \$45,000.

The application can be found at https://fs4.formsite.com/pusjp/form1/secure_index.html. For additional information about the program is available at www.princeton.edu/sjp.
